To whom it may concern,

I hope this letter finds you well. As a course adviser for **MNTSDEV - INTRODUCTION TO SYSTEMS AND DESIGN** at **NU Laguna**, I am writing to request your company's assistance in providing an opportunity for our students to gather information for a possible system development project.

Names of Students:

- 1.) Andresa, Rev Andrei
- 2.) Dagooc, Bryan
- 3.) Laurente, Vien Melvic

Our program is designed to equip our students with practical experience in developing and implementing information systems. As such, we are looking for companies that are willing to collaborate with us by allowing our students to conduct research and gather information relevant to a possible system development project.

We believe that your company would be an excellent fit for this project, given your reputation for innovation and commitment to excellence in your industry. Our students would greatly benefit from the opportunity to learn from your team and gain hands-on experience in the development of information systems.

Thank you!

Regards,
